My dear Meiza.

Mrs & Miss Campbell arrived here safely Wednesday afternoon & I came over from the Residency to meet them - Ami Stall is going to all right & Mick & I have not had to order very much from Wreen Bennett & Co - only 3 small chairs for Mi Drawing room & some extra curtains - I have had very little Mr Baston

Arrangements - I will ask Mr Campbell to see Mr Bennett & Co & explain to him & Mr Bryden & Mr Campbell & Mr Bryden

with Politics.

By the way will you let me know exactly what Motor Cars are being sent for the Willingdons - It is such cold here. After all we shall have only 2 rooms at Grand Lodge, for the A.D.C's so don't forget the Rickshaws. I have written several to you about the Polo Ground but have had no reply. Major Palemir, the Polo Secretary, asked me if they could both Teach for tea & dressing at the Polo ground & I told him that he could make his own

about the Loan + other matters - He is doing his best for our Loan + has pointed out that but for our "help" from during the War the necessity for a Loan at this juncture would not have arisen. He thinks at the Same time that from the point of view of the Cost of India this is a very convenient time for us to raise a Loan + that we shall be attracting investors, indirectly, from British India, Even if we do not actually float our Loan there - He has written to the Dewan about the Extremist Satyamurti who delivered a Political Lecture in Bangalore at the Cely Y. M. C. A the other day - The Lecture was objectionable anti-British + dealt with the Punjab disturbances - Why do these Political agitators Cause these + disturb people's minds? They ought not to be allowed. As Mr Basappa the Y. M. C A should have nothing to do
